## HOW TO ORDER

<b>DIAMETERS:</b>	These diamond drills are similar to wood cutting drills and only come in sizes shown. See HS series of drill for special sizes.
<b>DRILL DEPTH:</b>	1 1/2"
<b>SHANK:</b>	These use an arbor with standard 1/4" uncoated twist drill. Four types of arbors are available.
<b>GRIT SIZE:</b>	40-50 is standard. Larger or smaller grit size will change cut diameter.
<b>WALL THICKNESS:</b>	.055 - .060 blank thickness.
